

Audi A2 Tdi 75 – 2003

Rear Axle Bushes

Audi A2 Tdi 75 – 2003

Rear Axle Bushes

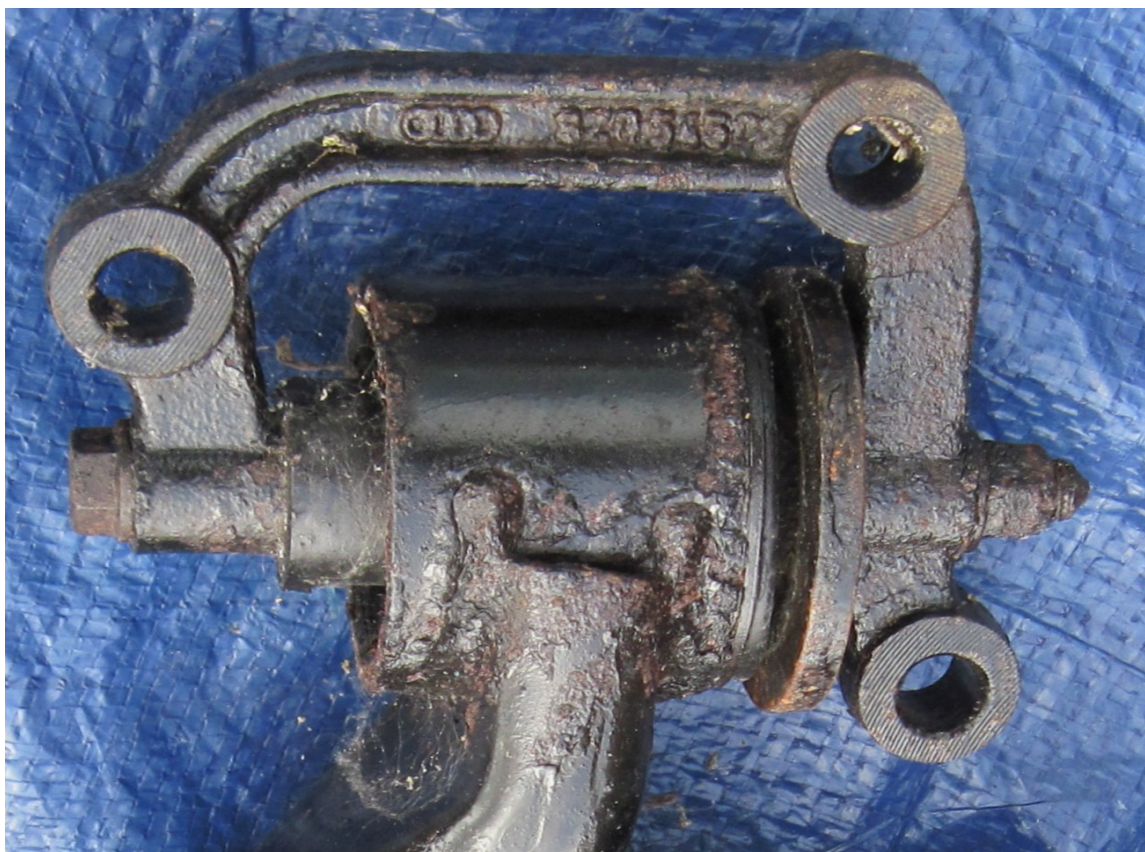

Old Bush (nearside)

C sizes approx. as lip has become distorted. Shown w/o housing.

* Measured after removal on bench and paint removed from shim.

All sizes in mm

Nearside Top view

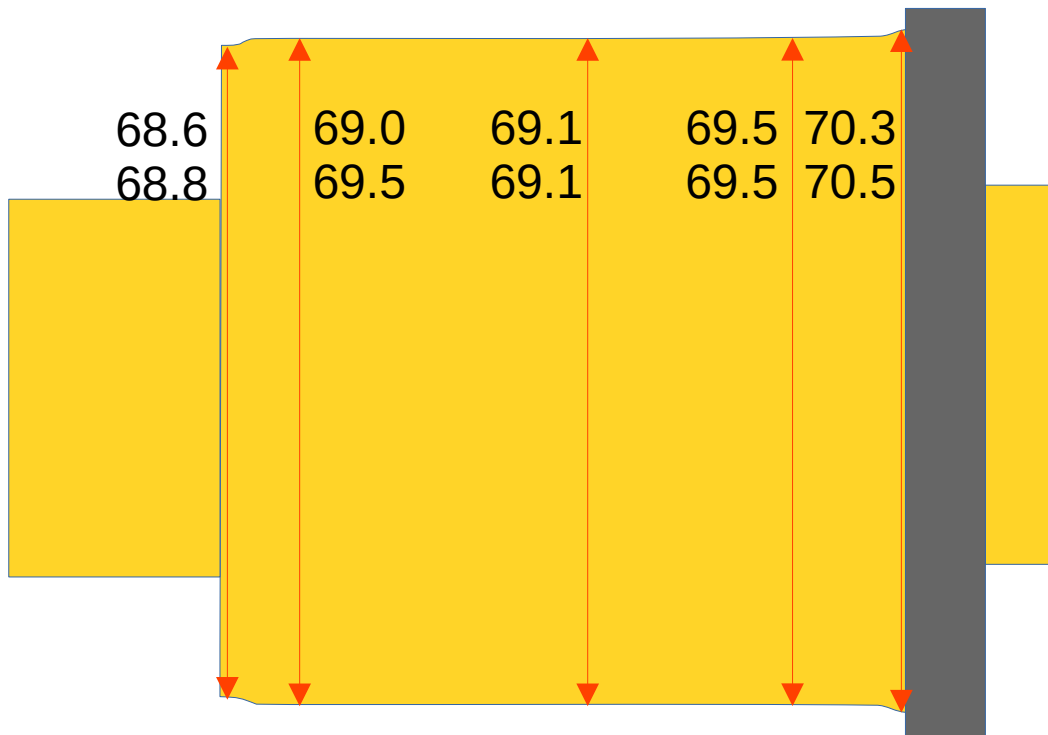

The width of the old bushes varies.

There is a slight bevel each end.

Note: removal by heating may have distorted.

1st number is one old bush and 2nd is the other old bush.

Bush come in various sizes: 71.5, 72, 72.5 but these variations maybe due to where they are measured.

Poly bushes have been seen in 69 and 72mm.

Paint removed from 1 shim - inner side against bush

Paint removed from 1 shim - outer side against bracket

Shims to be shot blasted and painted

Old bush after cleaning –
end against outer side
bracket

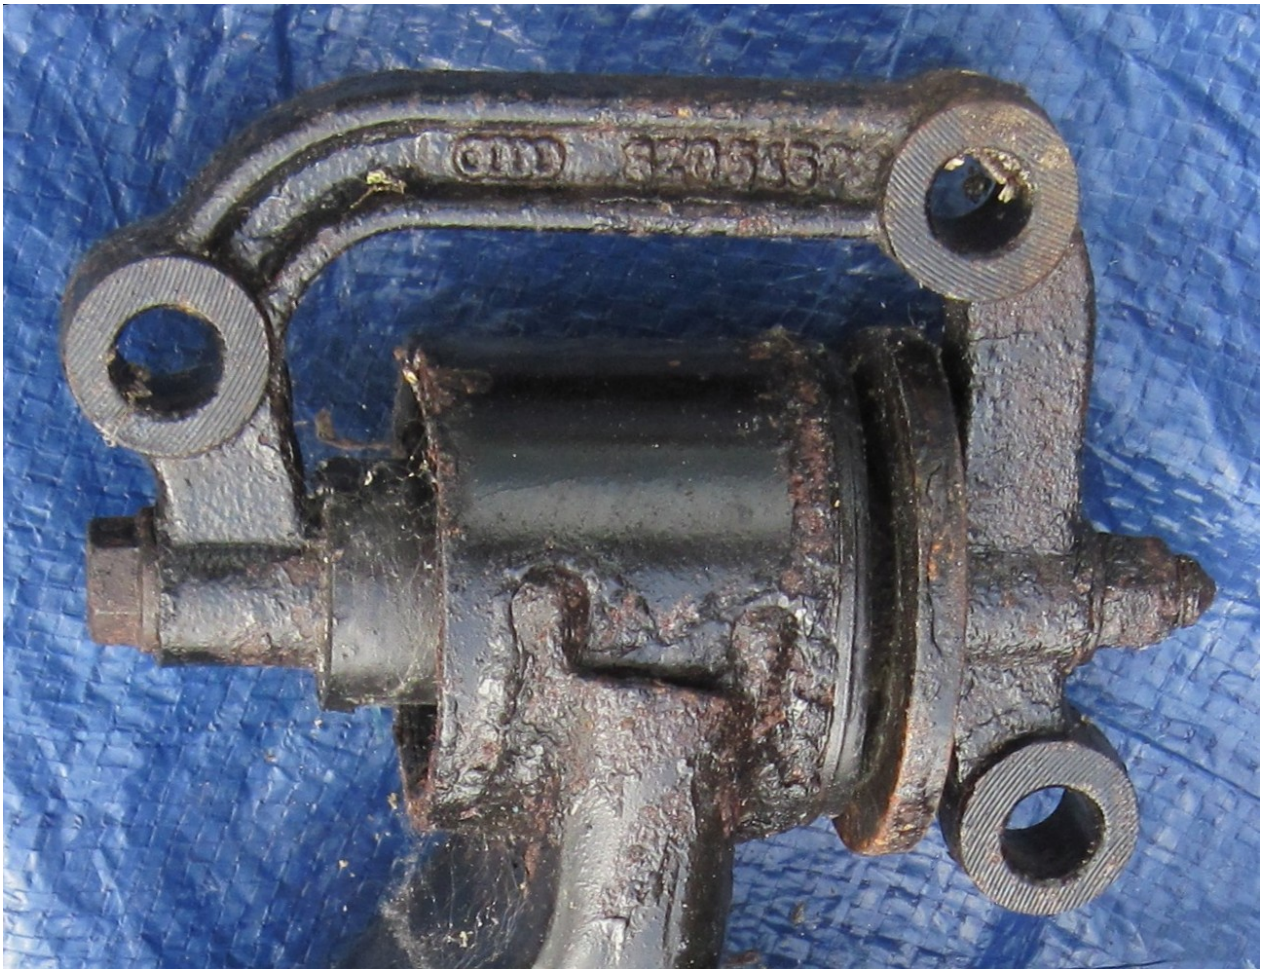

Old bush after cleaning –
end against shim

Note gap between bush
and shim

Old bush in place after old paint removed from shim.
Note: some distortion on bush due to heating to remove

Bush in place prior to removal. Note gap against shim

Stan's Powerflex bushes trial fit. Note left hand side is flush against the shim.
